Gigabit SFP- TO-RJ45 Module

(1.25G Gigabit SFP- TO-RJ45 Copper Module)

user manual

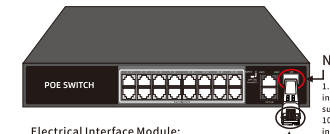

Product description

Gigabit SFP- TO-RJ45 Copper Module. It can be connected to the SFP ports of devices, such asswithches, and uses network cables for Ethernet data transmission. Suitable for network data communication, monitoring and security engineering and other communication fields.

Product Features

- Support IEEE802.3ab, SFP MSA Standard
- Transmission rate: 1000Mbps
- Transmission distance: 100m (Cat 5e or more)
- Standard SFP Port, Plug and Play
- Full metal frame for enhanced heat dissipation and shielding

Product Application

Note:
This module only supports the 1.25G (gigabit) specification SFP interface.The product does not support the 2.5G or 10G (SFP+ 10GbE) specifications with SFP interfaces.
* The 2.5G and 10G (SFP+) modes cannot be set via software to 1000M;

Electrical Interface Module:
The RJ45 interface only supports a link rate of 1000 Mbps, and when connecting with a 100 Mbps network card, communication is not possible;

Network Cable

Note: The SFP port of the switch may be reversed, please pay attention to the installation direction of the module.

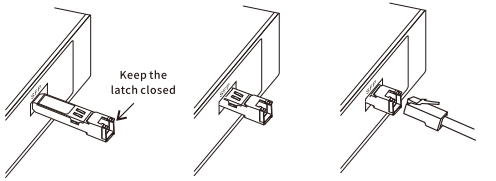

After the SFP module is connected, the network cable can be inserted for use.

Installing

1.Flip the bale clasp up before inserting the SFP module.

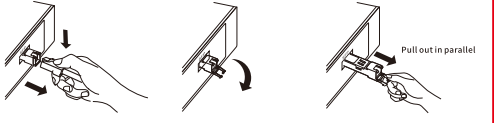

2.Line up the SFP module with the port and slide it into the port.

3.Insert the RJ45 connector network cable.

Note: The SFP port of the switch may be reversed, please pay attention to the installation direction of the module.

Removing

1.Remove the RJ45 network cable.

2.Open the bale clasp on the SFP module by pressing it down with your index finger.

3.Grasp the SFP module between your thumb and index finger and carefully, remove it from the switching module port.

Techniacl Parameters

Modle	Gigabit SFP-TO-RJ45 Module
Port	SFP TO RJ45
Voltage	3.3V
Supporting protocol	IEEE 802.3ab、SFP MSA
Transmission rate	1000Mbps
Operating environment	Operating temperature:0°C~40°C Storage temperature:-40°C~85°C
	Working humidity: 10%~90% (RH non-codensing) Store humidity: 5%~90% (RH non-condensing)
Network media	Cat5e or more UTP/STP(≤100m)
Product Size	14mm*13.5mm*67.5mm

Packing list

- Gigabit SFP-TO-RJ45 Module*1
- User Manual*1
