Happy children and joyful parenting for dads!

IDbabi is dedicated to developing sensory integration improvement tools to help children adapt better to the environment!

IDbabi is aimed at the new generation of parent-child families.

The products include:

tactile, vestibular (balance), and kinesthetic improvement tools or assistive tools related to touch, climb, sit, stand, walk, run, jump, slide, ride and swim during the growth of children aged 0-12 years.

Include:

baby tearing and gripping toys, crawling mats, protective rails, bumper covers, toddler tools, footstools, sports protectors, helmets, batting, bouncing equipment, Balance/coordination/reaction speed exercise equipment, scooters, skateboards, swimming rings, swimming floats, etc.

Wiggleboard is an innovative skateboard for children's sensory integration improvement that combines balance exercise, outdoor sports, fun and easy learning. We have invited an early childhood sports expert, Mr. Lin Xin, to develop a Wiggleboard sports training course.

We hope it can bring joy and health to children all over the world.

Wiggleboard

Learn in
30 minutes

Multiple
ways to ride

Strengthen
abs and core

Improve
balance

An innovative skateboard designed to improve children's sensory integration, build balance, is easy to learn and fun to play on; a training program on the Wiggleboard sport has been developed by early childhood sports experts from the Training Committee of The International Society of Physical Education of Young Children.

Selling Points

1. Fitness and fun, exercise the sense of balance anytime and anywhere.
2. Specially designed for children aged 6-13 years old to exercise their sensory integration abilities, with many fun ways to play.
3. No need to touch the ground, just twist and drive to move.

Happy children and joyful parenting for dads!

Item No.	T1
Colour	Yellow / Green / Pink
Size	540 x 400 x140 mm
Main Material	ABS、PU、Metal
Net Weight	3.25 kg

Item No.	T2
Colour	Yellow/Green/Pink
Size	540 x 400 x140 mm
Main Material	PP
Net Weight	4100g

How to choose?

Style	T1 	T2 
Colour	Yellow  / Green  / Pink 	
Size	540 x 400 x140 mm	
Wheel	 Luminous LED Wheel	
Wheel Frame	 Aluminum Alloy Wheel Frame	 Nylon Fiber Wheel Frame
Maximum Load Apacity	100kg	75kg
Plate	ABS	PP

Balance Beam

Scientific design inspires balance,
and parent-child interaction is interesting

The Balance Beam is a sensory training device with a unique shape that allows children to step on and keep balance, which is more challenging than the normal balance beam.

A variety of combined gameplay and multi-player interactive games allow children to exercise for their ability to keep a balance and enhance their courage and self-confidence in the process of playing. It is made of ABS engineering resin and can support a weight of 75 kg. It can also be used by adults.

By stepping on the balance beams, adjusting and controlling the balance of the body with the four limbs, children's vestibular sense will be trained. When children become skillful in that, the difficulty can be increased by doing one foot balancing exercises or playing interactive games on the balance beams.
