

TB6X 4K AI VideoBar

TB6X is a next-generation VideoBar engineered for seamless video collaboration in medium to large rooms. It features a 4K AI-powered camera with face tracking and speaker tracking capabilities, along with 3x optical zoom, 5x digital zoom, and a wide 120° viewing angle to ensure all participants are captured clearly. Equipped with a built-in 6-microphone array and support for up to 4 wireless extension mics, it enables clear voice pickup within a 10-meter range. The high-fidelity speakers, combined with smart DSP audio processing, deliver advanced acoustic echo cancellation, automatic noise suppression, and gain control. TB6X is the ideal all-in-one audio-visual solution for professional-grade video conferences in medium to large meeting spaces.

Product Highlights

4K Camera

The 120° ultra-wide angle camera of the TB6X is able to capture all meeting participants in its field of view. Additionally, the high pixel count of the TB6X helps to ensure that every expression of people within 16' of the camera is captured and seen.

AI Face Tracking

TB6X has a brand new AI intelligent zoom and tracking feature, which allows the camera to automatically zoom in and out, as well as pan, to keep the subject of your shot in the center of the frame. This provides an even greater boost to your communication efficiency.

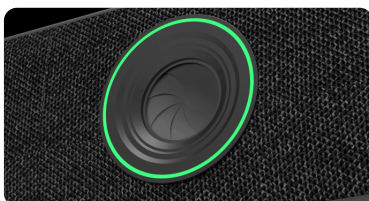

AI Speaker Tracking

Built-in intelligent analysis algorithm, it will track speaker's voice in real time to frame and keep the speaker at the center of the screen. It will break the distance limitation and make us feel immersive to create a face to face experience.

Hi-Fi Speaker

By delivering audio to the far ends of the room, the loudspeaker, combined with the renowned audio processing technology integrated into the TB6X, enables a natural conversational workflow between participants.

Privacy Cover Auto On/Off

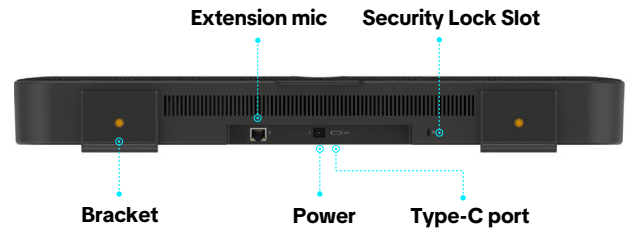

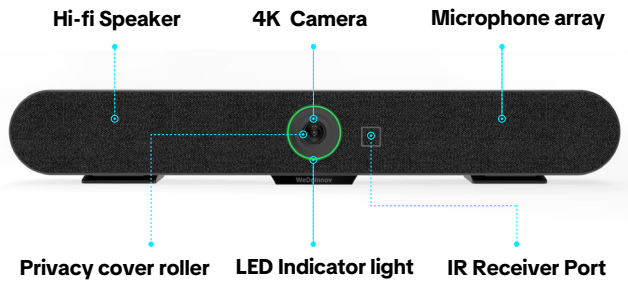

TB6X features an automatic lens privacy cover that opens and closes automatically to protect your privacy.

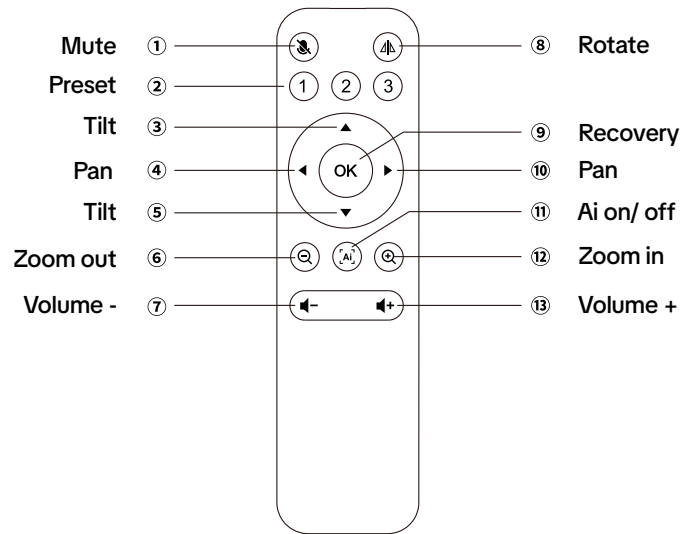

Microphone array

TB6X built-in 6 pickup microphones with 4 wireless microphones for voice pick-up range up to 10 meters, Make clear and smooth video calls without installing a microphone.
