Tubular Light Installation Steps

1 LED Single Tube Wiring Diagram

PS: Turn off the power before installation according to the steps;
The voltage must be 220V common voltage.

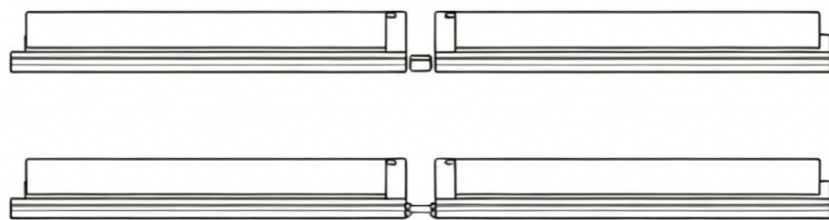

2 LED Integrated Tube Wiring Diagram

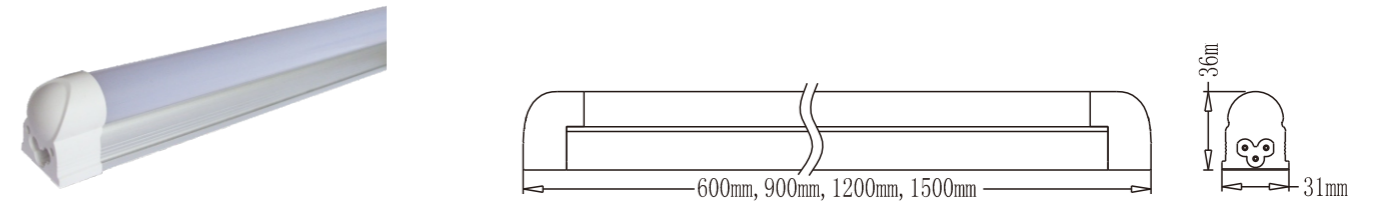

Ensure the lamp body is firmly installed during installation!

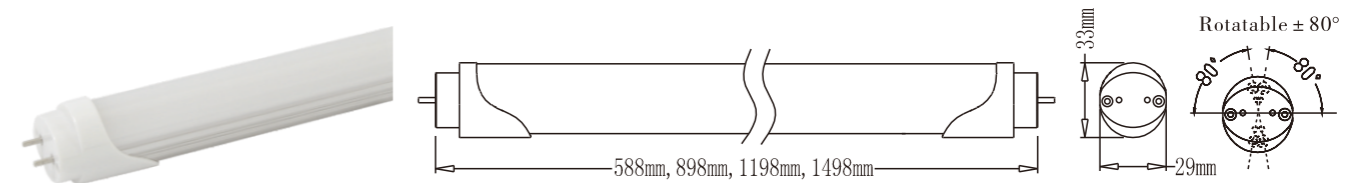

3 LED Integrated Tube Series Connection Diagram

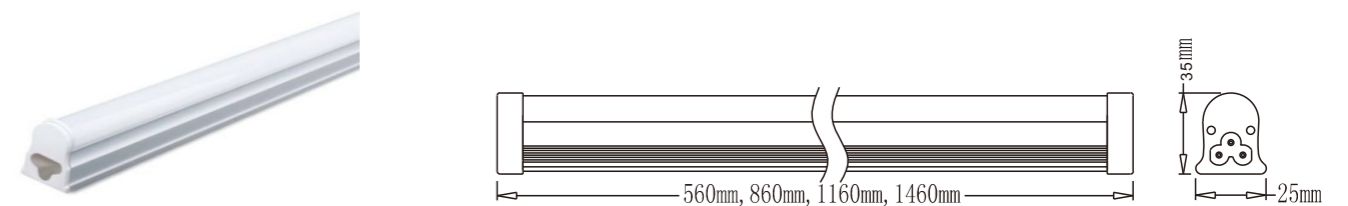

Note: 18W tubes must not be connected in series for more than 3, and 9W must not exceed 5. We are not responsible for any case by this.
