Specification

Item	Specifications	Item	Specifications
Model	VD60K-VA3A / VD60K-VA3B	Rated Voltage	220V
Structural Features	Square design / white	Rated Frequency	50Hz
Airflow	330m³/h ~ 375m³/h	Power Input	530W
Water Tank Volume	7.5L	Refrigerant	R32
Net Weight	18.0kg	Filter Type	Initial filter
Dimension	385 x 240 x 614.5mm	Purification	Plasma + UVC Sterilization
High-Temp. Dehumidification Capacity	62L/D (30°C/80%RH)	Control Methods	Touch screen, smart-app control, voice control
Nominal Dehumidification Capacity	1.5kg/h (27°C/60%RH)	Panel / Touch screen	LED / Touch screen
Noise Level	39 ~ 45dB(A)	Power Cord Specification	3*1.0mm²
Operation Temperature	5 ~ 40°C
