

Description: Progressive lubrication system
Type: PEG-S

Technical data:

Type	PEG-S
Drive	Electromotive
Operational voltage [V]	DC 24
Rated Current [A]	2
Power [W]	8
Delivery capacity [cc/min]	3
Reservoir capacity [L]	4/6/8
Max.operating pressure [bar]	350
Max.operating pressure [psi]	5075
Pressure connection	6mm compression fitting
No.of outlets	4
Controller	Built-in
Electrical connection type	7-core power cord
Installation position	Wall-mounted
Temperature range [°C]	-30 to +60
Temperature range [°F]	-22 to 140
Grease class	SAE 80 to NLGI -2
Protection class	IP65
